-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Pike (5,157,870).

Pike ('870) discloses an apparatus for sharpening a tool comprising a blade having a bevel face defining a cutting edge, said apparatus comprising: a movable substantially planar abrasive surface; a guide post arranged substantially normal to said planar abrasive surface; a tool holder including a portion defining a bore slidably engaging said guide post so that said tool holder is movable in a direction substantially normal to said planar abrasive surface, said tool holder further including a tool rest surface to support a blade of a tool, said tool rest surface being securable at an angle to said bore to permit said bevel face of said blade to be secured substantially parallel to said planar abrasive surface; and a clamp to restrain said blade of said tool to said tool rest surface.

Allowable Subject Matter

3. Claims 2 and 3 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: It is the examiner's opinion that the tool holder in combination with a base for supporting the tool holder and for attaching the tool holder to a table of a drill press, and in combination with a drill press, has neither been anticipated nor fairly suggested, in part or

whole, by the prior art of record.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Blanton, Cannelli, Jr., Jansson, Haffely et al., Blake et al., McGeoch, Schwab, Callaghan, Passarotti, Presmyk, and Gosling each disclose an apparatus for sharpening a tool.
